

PARTIALS -ATHENS, GA

what we do

All sounds are made up of partials, repeating vibrations that can be smaller than acorns and larger than oaks. With them we make worlds. We're musicians, but we also make apps, video games, and art.

genre

Indie Funk/Dance

who we are

We're a band. And what we care about most is introducing you to new music.

We started being a band about 2 years ago. It took a long time to decide what we wanted to do. We realized you can do anything, but you can't do everything. That didn't stop us from trying.
